

Double Check

Questions to ask your supervisor

What we were on the look out for:

Questions to ask your supervisor could be...

- What does an occupational therapist do?
- What does a physiotherapist do?
- What does a speech pathologist do?
- How do allied health professionals work together to provide treatment?
- What are the most important tasks for the day?
- What other tasks do different allied health professionals perform?

Topics to research after the Huddle

What we were on the look out for:

Questions that you could google after the call could be...

- What is a **home assessment** (what is it and what does it involve?)
- What is a **mobility assessment** (what is it and what does it involve?)
- What are some examples of **bed and chair exercises** that a physiotherapist may give Mr Wattle?
- How does a speech pathologist do a **swallow assessment**?
- What is **mealtime support**?
- What **types of equipment** do occupational therapists provide to patients?
- How do allied health professionals communicate with their patients?

What surprised you?

For this section, there is no such as thing as right or wrong (woo hoo!). Reflect on what you think sounds interesting about different allied health professions and what you would like to know more about.
